

Standard Industrial Fiberscopes

These Fiberscopes are for discerning professional users who require high quality and dependable remote visual inspection equipment without overpaying for expensive brand names and unnecessary features.

All of the backbone components in these Fiberscopes are manufactured by IT Concepts, including fiber-optic image bundles. Few other 'manufacturers' of industrial Fiberscopes can state this fact.

IT Concepts also manufactures custom-built and specialty Fiberscopes.

IT Concepts offers an extensive selection of accessories and peripheral equipment for use with industrial Fiberscopes. Contact us to learn more about our products or to explore business opportunities.

Model	Diameter	Working Length	Articulation	Direction of View	Side View Prism Tip	Field of View
2mm						
ART2-2-040	2.4mm (0.094 in)	40cm (1.3 ft)	2-way	0° Forward	No	40°
ART2-2-070	2.4mm (0.094 in)	70cm (2.3 ft)	2-way	0° Forward	No	40°
